

CLEAN ENERGY BUSINESS COALITION

Powering Utah's Future

Leading the clean energy transformation.

With 35 years of combined expertise, Utah Clean Energy is the state's foremost authority in renewable energy, energy efficiency, and clean-energy solutions. The Clean Energy Business Coalition supports non-partisan advocacy, education, and outreach efforts that are setting the stage for a healthier, less polluted Utah, as well as a future of economic success and sustainability.

"There is no group more invested in growing Utah's clean energy industry than Utah Clean Energy. They have successfully advanced clean energy policy, and built impactful coalitions to improve our air and environment."

Todd Stevens, RenewableTech Ventures

OUR GOALS

Make Energy Efficiency a Priority Energy Resource

Incentivizing energy efficiency will reduce pollution, spur the local economy, drive new technologies—and most importantly, keep Utahns healthy.

Accelerate Renewable Energy Market Growth

We're pushing for legislation, policies, and programs that encourage renewable energy companies to create jobs and compete on a level playing field.

Catalyze Clean Energy and Climate Change Champions

Through the Utah Clean Energy Business Coalition and Path to Positive Utah initiatives, we're building a diverse, powerful community dedicated to transforming the energy landscape.

*"Utah Clean Energy
is the preeminent
authority promoting
sustainable energy
policies in our state."*

Tyler Poulson
